

# MSCI GCC Countries Islamic Indices

17 indices for the Gulf Cooperation Council (GCC) and Arabian markets region, reflecting Sharia investment principles, including dividend purification.

The MSCI GCC Countries Islamic Indices are derived from the enhanced MSCI GCC Countries Indices, Then according to the MSCI Islamic Index Series Methodology, MSCI country indices are screened against a series of business activities and financial ratios, and a dividend adjustment factor is applied.

## Key Features & Benefits

**Replicable and Investable Indices** — The MSCI GCC Countries Islamic Indices provide managers and investors in the GCC region with indices that are replicable and investable, by reflecting the investment constraints for domestic and international investors.

**Rigorous Index Construction** — As with all MSCI Equity Indices, the MSCI GCC Countries Islamic reflect a rigorous approach to index construction, and are based on the enhanced GCC Countries indices, incorporating size segmentation, free float adjustment, liquidity and size guidelines, and annual and quarterly index reviews.

**Reflects Sharia Investment Principles** — An independent Sharia Board has granted a Fatwa on the MSCI Islamic Index Series Methodology, from which the MSCI GCC Countries Islamic Indices are derived, concluding that the methodology is in compliance with generally accepted Sharia guidelines. The Sharia supervisory Board, is comprised of some of the most widely respected and distinguished scholars

from the world of Islamic Finance, including:

- Dr Hussain Hamid Hassan
- Dr Ali AlQaradaghi
- Dr Abdul Sattar Abu Ghuddah
- Dr Mohd Daud Bakar
- Dr Aznan Bin Hasan

**Incorporates Dividend Purification** — The MSCI GCC Countries Islamic Indices are more relevant benchmarks because they reflect the total return of an Islamic portfolio net of a “dividend adjustment” factor, which “purifies” reinvested dividends of investment income.

**Index Licensing** — The MSCI GCC Countries Islamic Indices may be licensed for use by institutional investors around the world for portfolio management and benchmarking purposes. The indices may also be licensed to serve as the basis of structured products and other index-linked investment vehicles such as ETFs.
